PROFESSIONAL SUMMARY

Senior IT professional with 14+ years of experience providing IT support, cloud solutions, software development, data engineering, and database administration (DBA). Skilled in managing and deploying enterprise systems, leading SQL/BI initiatives, and supporting large on-premise and cloud environments. Strong hands-on experience with Oracle, Microsoft SQL Server, MySQL, and Azure database administration, including performance tuning, backup and recovery, monitoring, and high availability using tools such as Oracle Enterprise Manager Cloud Control, RMAN, Dell Spotlight, and Remedy. Proven expertise in Azure and AWS migrations, infrastructure management, and security best practices (SSO, MFA, identity management, compliance), with additional experience across VMware and UNIX/Linux/Windows environments, ESRI ArcSDE, and open-source NoSQL databases. Recognized for combining technical depth with project management, communication, leadership, and customer service skills to deliver reliable IT operations and strong business outcomes.

WORK EXPERIENCE

Senior IT Support/Deployment Specialist

Jun 2023 – to Current

SafeFleet • Remote, Canada

- Deploy and maintain Systems and Routing software for customers with on Safe Fleet's Waste/Recycling and Public Transport solutions.
- Provide customer support & tech issue resolution via phone, email and other electronic channel.
- Provide training to external/internal customers in the use of Safe Fleet systems.
- Configure and control the software requirements and upgrade systems
- Design scripts and software solutions depending on the client's requirements.
- Collaborate to integrate Azure Cloud solutions and Azure Server, VMs, DBs management
- Track, document, investigate logs, and retrieve information in databases for troubleshooting
- Participate in cloud migration projects, including workload transfers, hybrid integrations, and application deployments in Azure and AWS.
- Enforce security best practices with SSO, MFA, identity management, patching, and compliance.

Data Engineer

May 2022 – Jun 2023

Lion's Gate B. M. LTD • Lower Mainland, Canada

- Built and maintained ETL pipelines using Python, SQL, and Spark.
- Orchestrated workflows with Airflow / Azure Data Factory, including retries and monitoring.
- Ingested data from APIs, databases, and cloud storage into ADLS / S3.
- Transformed and aggregated data for analytics and reporting.
- Stored datasets using Parquet / Delta Lake for performance and scalability.
- Performed data quality checks and troubleshooting for pipeline reliability.
- Collaborated with analysts and stakeholders to define data models and requirements.
- Containerized ETL jobs using Docker for consistent deployment.
- Supported cloud analytics platforms (Databricks, Synapse, AWS Glue).
- Documented pipelines and workflows for team knowledge sharing.

Data Engineer

Oct 2021 – Feb 2023

Teleperformance Colombia S.A.S • Remote, Colombia

- Database management through SSMS (SQL Server Management Studio)
- Using SSIS (SQL Server Integration Services) for ETL Development and Reprocessing
- Design, implement, and maintain the data architecture for AWS data services
- Design and implement ETL processes to load data into the data warehouse
- Write SQL queries to support data analysis and reporting
- Monitor and troubleshoot data pipelines
- Generate reports and dashboards using PowerBI to visualize data
- Building and deploying automated testing frameworks using Selenium and WebdriverIO.

Lead SQL Developer & BI Developer

Jun 2015 – Oct 2021

Ingeniería Agua y Pozos S.A.S • Neiva, Colombia

- Collaborated with stakeholders to identify business requirements and develop technical solutions to meet those requirements.

- Led a team of developers to design, develop, test, and maintain software applications and business intelligence solutions.
- Developed and maintained data warehouses, data marts, datasets, and other BI infrastructure components using tools such as SQL Server, SSIS, and SSAS.
- Created and maintained reports and dashboards using BI tools such as Tableau, Power BI, or QlikView.
- Implemented database security and access controls such as user permissions, roles.
- Participated in Agile (Scrum/Kanban), including stand-ups, sprint planning, and retrospectives.
- Designed and implemented cloud-based solutions using platforms such as Amazon Web Services (AWS), Microsoft Azure, or Google Cloud Platform.
- Migrated on-premise applications and data to the cloud, ensuring minimal disruption to business operations.
- Designed and developed RPA solutions using Python scripting and automation libraries such as Selenium, and, PyAutoGUI.
- Developed and maintained Python-based data extraction scripts to extract data from various data sources such as databases, APIs, and web services.

Software Developer

Jun 2015 - Jul 2016

Danes Ingenieros SAS • Neiva, Colombia

- Collaborating with stakeholders to identify business requirements and develop technical solutions to meet those requirements.
- Developing, testing, and maintaining software applications, including writing code, debugging, and fixing defects.
- Using programming languages, frameworks, and tools such as Java, Python, React, VueJS, Django, JS, SpringBoot PostgreSQL and SQL server to develop software applications.

EDUCATION

Post Baccalaureate Technical Management and Services

May 2022 – Sep 2023

Kwantlen Polytechnic University • Surrey, Canada

Bachelor's degree in Electronic Engineering (Graduated Cum Laude)

Jan 2012 - Dec 2016

Universidad Antonio Nariño • Neiva, Colombia

Bootcamp Web application development & programming skills

May 2021 - Dec 2021

Universidad Nacional de Colombia • Bogotá, Colombia

Big Data Technical Diploma

May 2020 - Nov 2020

Fundación Carlos Slim • México City, México

Computer science Technician

Jan 2010 – Dec 2011

Atanasio Girardot • Neiva, Colombia

Data Network Technician Course

Jun 2020

Fundación Carlos Slim • México City, México

SKILLS

- Leadership Experience	- AWS S3, Lambda	- Linux	- RPA
- Communications skills	- AWS DynamoDB	- Technical Support	- ESRI ArcSDE
- Customer Service	- Git, GitHub	- CAD Tools	- ITIL
- Data analysis	- Heroku	- PostgreSQL	- SpringBoot, Maven
- Oracle	- Docker	- Dell Spotlight	- Postman
- Python Django	- MongoDB	- IT Support	- Selenium, WebdriverIO
- Azure Cloud Solutions	- Full Stack Dev	- CCTV	- ESRI ArcGIS
- Web Scraping	- Java	- Helpdesk Support	- Windows Server
- MySQL, SQLite	- ETL	- VMware	- Spanish/English
- SQL Server	- Jira	- Power BI	- Avaya
- SSMS, SSIS	- Scrum	- Spark	- Microsoft 365

LICENSES & CERTIFICATIONS

Big Data with Spark and Hadoop

Coursera & IBM
